

Pathway Program

About the Program

Many Iowa Western applicants, while lacking English proficiency, are otherwise qualified for undergraduate coursework. The Pathway program was developed as an option to provide students the cultural knowledge and awareness to succeed professionally, academically, and socially in the U.S. The Pathway program is recommended for students who are at a high-intermediate to advanced level.

Iowa Western offers students a variety of services and resources designed to help them make informed decisions regarding their career pathway. The one semester Pathway program provides students the opportunity to explore areas of interest while developing English proficiency. Students take up to 6 credits of general electives while improving reading, writing, speaking and listening skills required for college success.

Completion Information

The Pathway program is intended for students to transfer into an Iowa Western certificate, diploma, or associate degree program. Upon successful completion, students will be able to advance into their program of choice.

Pathway Program
